## TELEGRAPHIC.

OTTAWA, Aug. 7.

Davin's bill for the prevention of fires and the protection of cattle along railways was read a second time and referred to the railway committee.

Davin withdrew his resolution respecting second homesteads, the subject being dealt with in a bill amending the lands act now on the order paper.

In the commons on Wednesday Charlton's want of confidence motion arraigning the government regarding Northwest timber limits was defeated by 19 majority.

The engineer who examined the tenders for the celebrated cross wall reports that half the figures have been improperly extended. Peters & Moore were nearly \$70,000 lower than Larkin, Connolly & Co's. successful tender.

In the commons on Wednesday Caron said that Addison McPherson of Calgary, who preferred a claim against the government for rebellion losses amounting to \$1,592, had assigned the claim to I. G. Baker & Co., and the firm had filed a petition of right for the amount.

Woodman, assistant to Tetu, immigration agent at Emerson, told the public accounts committee on Thursday that Tetu rendered accounts for services not performed and material never used. Many accounts were produced which witness declared forgeries. Tetu denies the charges but makes indefinite denials. He has been suspended.

In the commons on Tuesday Desjardins' motion supporting the general policy of the government and expressing confidence that the negotiations for the extension of commercial relations with the United States will be so conducted that the result will be consistent with the proper control of our tariff and revenues was carried by 22 majority.

Thomas McGreevey testified before the privileges and elections committee on Wednesday and Thursday. He denied the testimony of Murphy and Robert McGreevey throughout, but admitted getting \$55,000 from Robert for election purposes and giving \$25,000 to Le Monde newspaper. He also admitted being the owner of the steamer "Admiral" which got an annual subsidy from the government. He received \$5,000 from the subsidy to the Bale des Chaleurs railway. He denied being interested in any government contracts or knowing of any wrong doing in respect to matters under investigation.

WINNIPEG, August 7.

Duncan McIntyre denies the rumors of amalgamation between the C. P. R. and G. T. R.

Rumored that the Manitoba Northwestern railway will soon secure the Northern Pacific lines in Manitoba; the whole then to be absorbed by the Canada Pacific. The rumor that the Northern Pacific has purchased the Manitoba Northwestern is denied.

The Minnesota and Winnipeg rowing associations regatta here on Monday and Tuesday resulted in Winnipeg winning the senior fours, the junior doubles and junior singles. Minnesota won the senior doubles and senior singles. The Larkins won the junior fours.

JAMES BANNERMAN of Calgary writes to Norris & Carey that the Calgary council has appropriated \$150 towards getting up an exhibition car to be sent east this fall, as is the custom of the C. P. R., and suggests that Edmonton co-operate with Calgary in sending an Alberta exhibit. The difficulty in the way of this proposal is that Northern and Southern Alberta are altogether diverse in their agricultural characteristics, and that a joint exhibit is likely if not certain to be altogether misleading. If a sure way out of this difficulty can be found no doubt Edmonton would be glad to co-operate; otherwise it would be very much better for each district to advertise its own special attractions in its own way.

ARCHDEACON REEVES, for many years Church of England missionary at Fort Chipewyan, is now in Winnipeg to be consecrated bishop of the Mackenzie river diocese which will include only that part of the old diocese east of the Rocky mountains. #### THE NORTHWEST BILL.

The New Northwest bill is to hand at last and is a very concise and comprehensive document. It is a series of amendments to the Northwest act and its amendments of 1888.

Section 2 dispenses with the services of legal experts belonging to the late assembly and adopts the present territorial electoral divisions without change. Section 6 provides that the lieutenant governor shall cause the issue of writs of election, and until the legislative assembly otherwise provides the lieutenant-governor shall prescribe the proceedings to be taken at elections; including (a) the mode of preparing voters' lists, (b) the oaths to be taken by voters, (c) the powers and duties of the various election officers (d) the proceedings to be observed at elections (e) the periods at which such elections may be continued and (f) such other provisions in respect to such elections as he thinks fit. The qualifications of voters remain—male, 21 years of age, residing twelve months in the Territories and three months in the district.

Section 7 specifies the subjects upon which the legislative assembly may make ordinances, which formerly were such as the governor in council might bring from time to time grant. They are:

(1) Direct taxation within the Territories in order to raise a revenue for territorial or municipal or local purposes.  
(2) The establishment and tenure of territorial offices, and the appointment and payment of territorial officers out of territorial revenues.

(3) The establishment, maintenance and management of prisons in and for the Territories, the expense thereof being payable out of territorial revenues.

(4) Municipal institutions in and for the Territories, subject to any legislation of the Parliament of Canada heretofore or hereafter enacted.

(5) Shop, saloon, tavern, auctioneer and other licenses, in order to raise a revenue for territorial or municipal purposes.

(6) The incorporation of companies with territorial objects, with the following exceptions (a) Such companies as cannot be incorporated by a provincial legislature, (b) railway, tramway, steamboat, canal, transportation, telegraph and telephone and irrigation companies, (c) insurance companies.

(7) The solemnization of marriage in the Territories.

(8) Property and civil rights in the Territories.

(9) The administration of justice in the Territories, including the constitution, organization and maintenance of territorial courts of civil jurisdiction, including procedure therein, but not including the power of appointing any judicial officers.

(10) The imposition of punishment by fine, penalty or imprisonment for enforcing any territorial ordinances.

(11) The expenditure of such portion of any moneys appropriated by parliament for the Territories, as the lieutenant governor is authorized to expend by and with the advice of the legislative assembly or of any committee thereof.

(12) Generally all matters of a merely local or private nature in the Territories. (2) Nothing in this section is to be construed to give to the legislative assembly any power in respect to the subjects therein mentioned than are given to provincial legislatures under the provisions of section 92 of the British North America Act of 1867 in respect to the similar objects therein mentioned.

Section 10 provides that each sheriff and clerk shall appoint a deputy or deputies at such places within the judicial district and with such powers as are from time to time determined by an ordinance of the legislative assembly.

Some important alterations are made in the administration of justice.

Section 12 provides that the right of the local government to surveyed trails shall be subject to any rights acquired under patents for any lands ceded thereby.

Section 20 provides that either the English or French language may be used in the debates of the assembly, and in the proceedings before the courts, and these languages shall be used in the records and journals of the assembly and all ordinances made under this act shall be printed in both languages. Provided, however that after the next general election of the legislative assembly, such assembly may by ordinance or otherwise regulate its proceedings and manner of recording and publishing the same; and the regulations so made shall be embodied in a proclamation which shall be forthwith made

and published by the lieutenant governor in conformity with the law; and thereafter shall have full force and effect.

Section 21 provides that the legislative assembly may by ordinance repeal the provisions of sections 92 to 100 of the present act—relating to the prohibition of intoxicants—with full amendments thereto, and may enact the said provisions or substitute other provisions in lieu thereof.

#### INCORPORATION.

The committee appointed by a public meeting of the residents of Edmonton held in Rose hall on 23rd July, 1891 to define the boundaries of the proposed incorporation, would recommend that the following be the boundaries of the town:

Commencing at a point on the north bank of the North Saskatchewan river at the western boundary of the Hudson Bay Co. reserve, thence running northerly along the westerly boundary of the said reserve 104 chains and 65 links, (being a point opposite the northeast corner of Malcolm Groat's property) thence due east to the eastern boundary of said H. B. Co. reserve, thence northerly along said eastern boundary of said reserve to that point where the Rat Creek intersects the said easterly boundary of said H. B. Co. reserve; thence following said Rat Creek easterly to the eastern boundary of River Lot 14 thence south easterly along said easterly boundary of said River Lot 14 until it reaches a point on the westerly boundary of River Lot 16 where the north boundary of the town plot survey of said River Lot 16 meets said easterly boundary of River Lot 14 thence easterly along said north boundary of said town plot survey of said River Lot 16 to the eastern boundary of said River Lot 16 thence south easterly along said easterly boundary of River Lot 16 to the north bank of said North Saskatchewan river, thence westerly along said north bank of said North Saskatchewan river to the place of beginning.

The above boundaries are submitted for the approval of a general meeting of the residents of Edmonton to be held in Rose hall, August 29th instant at 8 p. m.

## BEAVER LAKE.

E. Carey returned from Beaver lake on Thursday, having purchased 30 fat steers from R. Logan of the Beaver lake stock ranch. Mr. Logan has about 300 cattle and 130 horses, besides a large band of sheep. Harvest is about commencing at the lake. D. Mackenzie of the west side has barley which was sowed on June 2nd and was ripe and ready to cut on August 2nd, and also has wheat which was sown on May 16th and will be ready to cut on August 17th. R. Logan has black oats so ripe that they are shelling out. There was little or no snow at the lake last winter and no rain except a couple of showers this summer until a week ago. Still the crop is very good, especially Mackenzie's which is on high ground a short distance back from the lake. Hay is more scarce than usual owing to the dry weather but very little is needed as most of last season's hay is on hand yet, very little having been fed last winter. Messrs. Pruden and Logan have corn from seed grown by themselves last year which will ripen early this season. It is a small Manitoba variety. Although several creeks carrying a large amount of water run into the lake from the Beaver hills, no water runs out and the lake is decreasing in depth. The Beaver river, as the outlet of the lake is called, is dry. The people of the Beaver lake settlement are very anxious to have a road cut through the Beaver hills to Edmonton, which is less than 40 miles distant in a direct line, but about seventy miles as the present road runs around the north end of the hills.

## PERMITS.

The permit system as at present administered is probably the most objectionable feature of the Northwest liquor law. In the first place it is impossible that any single official, however wise and willing, can from his own knowledge or on information at his disposal, discriminate properly in the granting or withholding of permits. In the second place, give the arbitrary power to any man and it is almost certain to be used arbitrarily, to the discredit of the law and the dissatisfaction of the public. The following is a case in which it has been so used: The members of the firm of Norris & Carey, Edmonton, have been in the habit of keeping liquor for personal use under permit, ever since permits became necessary, and never were refused permits on making application, or ever accused of abusing the permit privilege. On November 19th of last year E. F. Carey sent for a permit for 4 gallons of liquor, enclosing the fees. The permit was refused without any reason being given and the money returned. At once a recommendation from Insp. Pierce, (the Mounted police officer in charge at Edmonton) was secured and the application re-forwarded with the required enclosure. Mr. Carey has never heard of either the application or the money since. On December 10th J. Norris, sr., applied for a permit, enclosing the necessary \$2, and has never heard since of either application or money. On July 7th of this year Mr. Norris again applied for a permit, and on July 16th Mr. Carey sent an application for a permit to a friend in Regina requesting him to call upon the lieutenant governor with the application and ask for a permit or for a reason why it would not be granted. The last mail brought back both applications refused and a letter of explanation from Mr. Carey's friend running as follows: "The reason of not having given you a permit was that it had been reported to him (the lieutenant governor) by the police that the large quantity of liquor they had seized and destroyed (a seizure made at Broadview last summer) was consigned to Norris & Carey, Edmonton, and in the face of this fact he could not grant permits to them. However it would not do for him to explain his reasons to you." If Norris & Carey were in any way responsible for the presence in their car of the seized liquor alluded to (a notorious case) why were they not prosecuted as the law provides? and if they were not responsible for it why should they be held so by the lieutenant governor, without being given the opportunity to clear themselves of the charge. If the issue of permits is one of the lieutenant governor's official functions and is not merely a personal privilege, these gentlemen had a right to know why they were denied what was accorded to so many others all around them, to say nothing of what was due them in common courtesy. Mr. Carey denies any connection with the seized liquor alluded to and demands that his firm be relieved from the suspicion unjustly cast upon it by the prosecution by the authorities of whoever was the owner of that liquor—which prosecution he it remembered has never taken place.

The Qu'Appelle Progress of July 23rd mentions the arrival of a brigade of freight carts from Prince Albert to convey three carloads of goods to that place for T. J. Agnew. There is something queer somewhere when the Red River cart can beat the railway on a 250 mile haul.

Five families of Mennonites who went from Morden, Southern Manitoba, to Gleichen, have returned to Morden and give the Gleichen district a very bad name.
